### You're invited to the EY Challenge!

Thank you for your interest in EY! We will be hosting a unique event that is geared toward students who are 3 years out from graduating. It will consist of two competitive group activities that will educate you on our Assurance and Tax practices through creative thinking challenges, as well as, networking with our various EY professionals in breakout groups as you work together to come to the solution. Space is limited and you will be confirmed only after receiving confirmation details from our team in November. We will do our best to confirm all qualified candidates for the event!
